

INDEX

1. GÓMEZ-ARCUSA *et al.* Invasion of temperate riparian forests by *Acacia dealbata* affects macroinvertebrate community structure in streams
13. CONFORTI *et al.* *Trachelomonas* from temporary ponds on Menorca Island
29. POI *et al.* Linking hydrological connectivity with the richness and composition of aquatic invertebrates across the Parana River floodplain, Argentina
43. ORDUNA *et al.* Spatio-temporal variation in the zooplankton community of the Zahara-El Gastor Reservoir (Cádiz, Spain)
61. CARRERO-CARRALERO *et al.* Caracterización térmica de ríos de montaña regulados por aprovechamientos hidroeléctricos. Ejemplos del Pirineo Central
85. KROTH *et al.* Female oviposition preferences and larval behavior of the *Aedes aegypti* mosquito (Linnaeus, 1762) exposed to predator cues (Odonata: Libellulidae)
101. VECCHIONI *et al.* Further evidence of the southern Mediterranean medicinal leech *Hirudo verbana* (Annelida, Hirudinea) feeding on fish, with a review of the use of fish hosts by *Hirudo* spp.
113. SALVAT-LEAL *et al.* Cadmium and lead in European eels from the river Segura (southeast Spain)
125. ROMERO MARTÍN *et al.* Caracterización biométrica de larvas de *Cordulegaster boltonii* (Donovan, 1807) en Sierra Nevada (sureste de la Península Ibérica)
141. ARNAL *et al.* A review on the distribution and habitat features of *Chara canescens* in the Iberian Peninsula: sexual populations revisited
159. DOYCHEV AND TANEVA. An unpolluted regulated stream and its recovery gradient dependency from environmental variables
179. LÓPEZ-PEÑA *et al.* Bioecology of blackflies (Diptera: Simuliidae) of the water basin of the Huebra River (Western Spain)
199. GRUPPUSO *et al.* Environmental factors affecting the distribution of Spongillidae (Porifera) in an artificial channel, in north-western Italy
209. SILVA *et al.* Isotopic trophic discrimination factors ($\Delta^{13}\text{C}$, $\Delta^{15}\text{N}$) and their determinants in a subtropical macroinvertebrate food chain
227. DE CASTRO-CATALÀ *et al.* Single and mixed effects of an herbicide and fungicide on green and brown fluvial food chains
241. SANTOS MACHADO *et al.* Driving factors of phytoplankton Reynolds functional groups (RFGs) in a subtropical reservoir (São Paulo, Brazil)
257. DESERTI *et al.* Predation by *Coleps* sp. (Ciliophora, Prostomatea) on polyps of *Hydra* (Cnidaria, Hydrozoa)
269. BALTANÁS *et al.* Ostracods (Crustacea, Ostracoda) from Doñana (SW Spain): an updated checklist, including new records, of Recent and Quaternary non-marine, marine and brackish species in the area
297. MENDES *et al.* A new species of the genus *Squalius* (Leuciscidae, Actinopterygii) from the Sado River basin in Portugal
313. RODRÍGUEZ-CONTRERAS *et al.* ICAYAR, un Índice multimétrico basado en insectos acuáticos para evaluar el estado ecológico en la cuenca del río Ayuquila-Armería, México
333. MAYNOU *et al.* Water temperature drives local variability in the life cycle of *Onychogomphus forcipatus* (Odonata: Gomphidae) in a Mediterranean river
345. LLORENTE AND FRAILE. Caracterización limnológica de la red de embalses del Consorcio de Aguas Bilbao Bizkaia
